ACT No. I OF 1864.

An Act for regulating Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta.

Preamble.

WHEREAS it is expedient to regulate Hackney Carriages and Palankeens in the Town and Suburbs of Calcutta ; It is enacted as follows :—

Carriages to be registered and licensed.

II. Every Hackney Carriage, within the Town and Suburbs of Calcutta, shall be annually registered and licensed by a Registering Officer, who shall be appointed for the purpose by the Government, and who shall keep a Register in which he shall on registration enter every Hackney Carriage under either the First, the Second, or the Third Class.

The Registering Officer shall, on examination of the Carriage, decide whether the Carriage is fit to be registered in the Class applied for, and shall accordingly either register it in that Class, or refuse to grant the application.

Notice to Mariners.

Light Houses have been erected on Foul Point and Round Island in the entrance of Trincomalie Harbour. The lights are of the following description, and will be exhibited from sunset to sunrise every night after the 1st of February 1864 :—

FOUL POINT.—A flash light shewing a brilliant flash every half minute, which is plainly visible seventy miles in clear weather from a Vessel's deck elevated eighteen feet above the sea; a faint light is shewn between the flashes, which is not visible beyond a distance of seven miles.

ROUND ISLAND.—A fixed bright light, which is plainly visible ten miles in clear weather from a Vessel's deck elevated eighteen feet above the sea; it shews a red light when brought to bear between the points W. by S. ½ S. and S. W. ½ S., which is not visible beyond a distance of six or seven miles. Approaching between these bearings the bright light is not seen.

The following directions are for the guidance of Vessels entering the inner Harbour :—Approaching from the southward bring Foul Point light to bear west, distant two miles; then steer N. W. until Round Island light bears W. S. W., then steer direct for it until the extreme point of Chapel* Hill bears north; then steer W. by N. until Round Island light bears S. by E. ¼ E.; then steer N. by W. ¼ W., passing midway between Ostenberg Point and Sober Island, and keeping Round Island light bearing S. by. E. ½ E.; anchor immediately when the water is shoaled to twelve† fathoms.

Approaching from the northward when Foul Point light is made, bring it to bear S. by E. ½ E., and steer direct for it until Round Island light bears S. W. ½ W.; then steer direct for it until the extreme point of Chapel Hill bears N. by E. ½ E; and then follow the directions already given for approaching from the southward after Chapel Hill bears north.

The Red light is intended to direct Vessels clear of the dangers off Foul Point and Chapel Rock; therefore Vessels working into the Harbour should be careful to keep within its limits.

(Sd.) JAMES DOUNAN,
Master Attendant.

MASTER ATTENDANT'S. OFFICE;
Colombo,
The 19th December 1863.

* Chapel Hill being a high bluff head-land may be easily distinguished in the darkest night, as when brought to bear N. or N. by E. ½ E. it will be only one and a quarter miles distant, and will be the extreme point of land visible in that direction.

† The Lead should be kept going after passing Ostenberg Point, as the water shoals rapidly from twenty-five to twelve fathoms.

Notice.

Notice to Mariners.

Light Houses have been erected on Foul Point and Round Island in the entrance of Trincomalie Harbour. The lights are of the following description, and will be exhibited from sunset to sunrise every night after the 1st of February 1864:—

FOUL POINT.—A flash light shewing a brilliant flash every half minute, which is plainly visible seventeen miles in clear weather from a Vessel's deck elevated eighteen feet above the sea; a faint light is shewn between the flashes, which is not visible beyond a distance of seven miles.

ROUND ISLAND.—A fixed bright light, which is plainly visible ten miles in clear weather from a Vessel's deck elevated eighteen feet above the sea; it shews a red light when brought to bear between the points W. by S. ½ S. and S. W. ½ S., which is not visible beyond a distance of six or seven miles. Approaching between these bearings the bright light is not seen.

The following directions are for the guidance of Vessels entering the inner Harbour:—Approaching from the southward bring Foul Point light to bear west, distant two miles; then steer N. W. until Round Island light bears W. S. W., then steer direct for it until the extreme point of Chapel* Hill bears north; then steer W. by N. until Round Island light bears S. by E. ¼ E.; then steer N. by W. ¼ W., passing midway between Ostenberg Point and Sober Island, and keeping Round Island light bearing S. by. E. ¼ E.; anchor immediately when the water is shoaled to twelve† fathoms.

Approaching from the northward when Foul Point light is made, bring it to bear S. by E. ¼ E., and steer direct for it until Round Island light bears S. W. ½ W.; then steer direct for it until the extreme point of Chapel Hill bears N. by E. ½ E; and then follow the directions already given for approaching from the southward after Chapel Hill bears north.

The Red light is intended to direct Vessels clear of the dangers off Foul Point and Chapel Rock; therefore Vessels working into the Harbour should be careful to keep within its limits.

Master Attendant.

MASTER ATTENDANT'S OFFICE;
Colombo,
The 19th December 1863.

* Chapel Hill being a high bluff head-land may be easily distinguished in the darkest night, as when brought to bear N. or N. by E. ¼ E. it will be only one and a quarter miles distant, and will be the extreme point of land visible in that direction.

† The Lead should be kept going after passing Ostenberg Point, as the water shoals rapidly from twenty-five to twelve fathoms.
